DOCTORS CANNOT AGREE REGARDING DEATH OF CHILD

Needles Found in Brain of Little Colored Girl Were Corroded.

POLICE COMPLETELY
BAFFLED OVER CASE

Detective May Be Sent to Former Home of Mother of Deceased.

Never before have the Edmonton police been asked to solve a more mysterious or perplexing case than the one they have on their hands now in connection with the death of little Frankie Green, whose mother was found five needles. The three questions that are puzzling the detectives are, how, why and where the needles were placed there. It has also started a controversy among some of the leading physicians as to the cause of the child's death, as the needles found were corroded, that they must have been placed there some time ago and that as the child developed and grew, they began to take effect until at last they caused the death. In support of this they claim that in the first place it would be almost impossible to place the needles there when the child had grown as old as she did, as the skull would be too hard and thick; and in the second place, they could not penetrate the skull without leaving some sort of a sore, and it would not be necessary to use five to cause the victim's death.

Difference of Opinion.
On the other hand there are some physicians who claim that the needles were placed there a few hours and that the child could not have lived any length of time with the needles in different places and at various angles, as they were found.

The theory that has been advanced by some that the needles came there purely by accident does not commend itself to the police officials and little faith is placed in this theory.

So far no motive has been found by the police unless it is that for the girl's life was insured for a little over a hundred dollars, payable to the stepfather. But so far the crime has not been connected with this man, and he is merely held on suspicion by the police.

Child Simple Minded.
In conversation with some of the officers it was stated that a Confidential reporter this morning that for the last few weeks the child appeared to be a little simple-minded, but not much notice was taken of this as the child was still very young.

Every possible effort is being put forward by the police to unravel this mystery and it is understood that a detective will be dispatched to the former home of the mother in Texas with a view to discovering a possible clue, and also to find out if her husband is still living there as she claims.

Mrs. Green, the mother of the deceased child, was brought up in the police court and charged with murder. The case was remanded for one week. The object in this is to detain her and to give the officers a better chance to get more evidence.

**ALLEGED MURDERER IS
CAPTURED AS HE PRAYS
IN MONTREAL CHURCH**

Montreal, Que., March 17.—While praying in St. Vincent De Paul church, at the corner of Pallum and St. Catharines streets at 8 o'clock this morning Joseph Beauchamp, the alleged leader of the trio of Montreal murderers, was caught by Constable Wilfrid Choquette, aided by Lieut. Trudeau, and Sergeant Constable.

He was heavily armed, carrying a 28 and a 32 calibre revolver, but was grabbed by Choquette and his partner before he could get away. He was taken to a hotel and held in custody.

Beauchamp was in the United States, after a voyage of 47 hours from Limerick, Germany, setting a new time record of 1,861 miles in a spherical balloon. He and his comrades were immediately arrested, and in spite of official intervention he has been detained there ever since by the Russian police.

MRS. GEORGE FRANK BOOMED FOR JUDGE OF CHILDREN'S COURT.

The appointment of a woman as Associate Judge in the New York Children's Court is the aim of the prominent women's organizations in Brooklyn. Delegates from the various organizations who form the committee of preventive work decided on the presentation of such an appointment after hearing of the good results accomplished by women judges in the Children's Courts in Chicago. It is argued

that the children will speak more frankly to a woman than to a man, and that a woman is far more capable to tell just how far to go in dealing with a girl, and just what steps should be taken in bringing about a reform.

**LIBERALS ORGANIZE
IN THREE DISTRICTS
STARTING TOMORROW**

With such speakers as Hon. A. G. Macdonald, Hon. Wilfrid Laurier, Geo. H. O'Connor, J. W. Adair, William Ross and others, three district meetings will have liberal organization meetings this week.

Tomorrow night those of district No. 5, which includes the territory between Tenth and Twenty-first streets, and south of the C.N.R. tracks, will convene in the old Presbyterian church, corner of Ninth and Jasper, at eight o'clock, with T. B. Malone in the chair.

Thursday evening those residing between First and Tenth streets, and south of the C.N.R. tracks, will organize in the Macdonald building, corner of Ninth and Jasper, with E. V. Macdonald as convenor. This is district No. 8.

On Friday No. 10 district will hold its meeting at a place to be announced in the papers later. W. A. Irwin is convenor for the district, which comprises that section of the city lying east of First street, and between the C.N.R. tracks and Norwood boulevard.

Eighteen Want Pardon.
Washington, D.C., March 17.—Application for pardon for eighteen of the men convicted in the "dynamite conspiracy cases" at Indianapolis was filed today with the department of justice. The petition alleged that the men were innocent and that Judge Albert B. Anderson, who presided over the trial, was biased and that they were convicted, did not give a fair and impartial trial.

Panama Action Delayed.
Washington, D.C., March 17.—Action in the senate on the Owen bill to repeal the tolls exemption clause of the Panama Canal act probably will be delayed for a few days, on account of the absence of Senator O'Gorman, chairman of the inter-oceanic canal committee. Senator O'Gorman will not return until Wednesday.

Bound for Western Canada.
Winnipeg, Man., March 17.—The Vanguard of this year's immigrants from the old country to the west are due to arrive this afternoon and evening, when 600 passengers from the Empress of Britain and Albania will arrive. The majority are bound for farms and points in western Canada.

Two Killed By Blast.
Sherbrooke, March 17.—A. R. McDevall was instantly killed and Joseph Brown was seriously injured when a dynamite explosion occurred at the Western Mining Co. at Lake Weeden, Saturday afternoon. Both men leave widows and families.

ELKS CELEBRATE ST. PATRICK'S DAY

AT PARADES SHOW
Manager Gill Decorates Reserved Section and Has Special Music.

**MEMBERS OF ORDER TO
BE ADMITTED GRATIS**

Many of Actors and Actresses Appearing Belong to Emerald Isle.

The finest traditions of old Ireland will be honored with yeasting, healthy Canadian and American Elksdom at the Pantheas theatre tonight. Charles L. Gill, the ultra-popular manager of that playhouse, has set apart a large portion of the orchestra section and invited all members of the order to form

Edmonton B. P. O. E. lodge, all visiting Canadian Elks, including the big contingent of officers from Calgary who installed Edmonton lodge No. 13 last night, and all American Elks to be guests.

The reserved section will be decorated with purple and white, the colors of the Elks, and also with real Irish green in honor of St. Patrick. The crown of the joys of a joyful night, there are actors and actresses taking part in this week's fine Pantheas vaudeville bill who are Elks and others who are Irish.

Mr. Gill has left nothing undone to insure a big night for Elksdom in Edmonton, the first night Elks who can call their home Edmonton ever roamed through the forests. The local Pantheas manager is one of the most enthusiastic Elks on the continent, the only continent on which Elksdom lives. It is religion with him, and he has to his religion it is his duty to do the opinion of any Brother Elks with whom he ever came in contact.

The bill at the Pantheas theatre this week would be good for anybody to witness on any day in the year, but when the Elks people on the bill at the Pantheas theatre for their initials, B. P. O. E. Elks, such a show on no other night but this night can be forgotten, wherever and whenever Elks who are in Edmonton tonight may travel.

Elks, either Canadian or American, will be admitted to the Pantheas theatre tonight by simply presenting their cards or receipts. The show begins at 8:30 sharp.

MADE-IN-CANADA FAIR WILL OPEN TOMORROW; TREAT IS PROMISED

All arrangements have been made for the "Made-in-Canada Fair" to be held at the old Presbyterian church, corner of Third and Jasper, commencing tomorrow. The fair will be conducted by the business men of the city, and a fine program has been arranged for all three days. Afternoon tea will be served in the first decorated parlour, and in the rooms, where there will be music and plenty of amusement to satisfy all.

The opening of the fair will be on the following days it will be in full swing from ten a.m. until p.m.

Welsh vs. Rivers Today.
Los Angeles, March 17.—Freddie Welsh the British lightweight, and Joe Rivers, of Los Angeles were prepared today for their 20-round battle at Vernon arena at 2:30 o'clock this afternoon. Both men weighed in at 134 pounds, and Rivers declared that he was in excellent condition.

For Strathcona Memorial.
London, March 17.—A public appeal for contributions to the Strathcona memorial will be issued here this week. The general committee includes Premier Borden, the Hon. J. H. Macdonald, Lord Chancellor, the Duke of Argyll, and every other ex-governor-general of the Dominion.

Grand Orange Lodge Meets.
Medicine Hat, Alta., March 17.—The Provincial Grand Orange lodge held the meeting with over hundred delegates attending. This afternoon the lodge was visited by Mayor Brown and responded to by Grand Master Peter of Red Deer. Delegates will be banqueted by local lodge this evening.

Woman Sent to Edmonton.
Prince Albert, March 17.—Rita Palmer was sentenced at the fall assize to two years in the pen for procuring Louise Vachon for immoral purposes was last night taken to the women's department of the dominion penitentiary at Edmonton. She had been in the hospital here ever since being sentenced.

YOUNG WOMAN ATTACKS VICE PRESIDENT OF THE FRENCH CHAMBER OF DEPUTIES! SCANDAL IN WAKE OF ASSASSINATION

Paris, March 17.—A young woman singer assaulted Victor Augagneur, vice-president of the chamber of deputies, as he was about to open parliament today. Much excitement was caused by the attack, owing to his long opening session as soon after the assassination of the Chamberlain, Augagneur, who is a deputy from the Rhone department, was entering the parliament hall for the session which was just ready to open when the attack occurred. His assailant was arrested, but was later set at liberty. The motive for her action did not become known. M. Augagneur later presided calmly over the session of the chamber.

KING AND QUEEN ARE HARANGUED BY SUFFRAGETTE

London, March 17.—Military suffragettes, continuing an extra and "unrehearsed turn" to the program given before King George and Queen Mary at a music hall performance today in aid of a hospital.

During the singing of the national anthem, a shower of militant suffragette pamphlets fluttered from the gallery above the royal box. Some of the papers floated into the box and found a lodging on the shoulders of the king and queen. Simultaneously a woman occupying a place in the stalls of the theater stood up and, pointing a finger at the royal party, shouted:

Your majesties, Mrs. Pankhurst is in prison. I therefore

"The woman was unable to proceed further with her speech as a detective held her hand over her mouth and she was led out of the theater.

Shooting May Have Far-reaching Effect on Political Situation.

Paris, March 17.—The fall of the French cabinet was this morning generally regarded as likely to be brought about by the assassination last night of Gaston Calixte, editor of the Figaro by Madame Calixte, wife of the minister of finance, but the full was averted.

Premier Doumergue conferred this morning with President Poincare at the place of the Elysee, and a cabinet council was called later in the day to decide whether the ministers should resign in a body or an attempt be made to reorganize the cabinet with Calixte left out. It was decided to try to reorganize.

It was conceded by all members of the cabinet that the shooting of M. Calixte was a most unfortunate and regrettable event, which had a far-reaching effect on French politics. It was recognized that M. Calixte had been the creator of the present French cabinet, and his death would have a far-reaching effect on the government.

Woman Commences Calmly
Madame Calixte, when she was taken from the police station to St. Lazare prison, after committing the crime, was accompanied by Arthur Lemaire, chief private secretary of the minister for war. She conversed calmly with

"My husband is one of the most capable of men," she said. "The press campaign which has been carried on against him for some time is frightful. I tremble every morning when I open the papers."

The prisoner's composure faded, however, when the chief warden of St. Lazare prison told her that she was to be put in a cell.

M. Calixte's resignation was made necessary by his wife's assassination of Gaston Calixte, editor of the Figaro. Although Calixte was considered the strongest and most influential member of the cabinet, his colleagues determined to accept his resignation and to reorganize the cabinet.

René Renoult, hitherto minister of the interior, will become minister of commerce, and M. J. B. Duvall, minister of commerce, will succeed M. Renoult as minister of the interior. Raoul Peret, deputy from Vienna, will become minister of the interior.

**STEAMSHIP MAN SAYS
EDMONTON ONLY CITY
NOW HOLDING ITS OWN**

Edmonton seems to be the only city in the west which is holding its own during the present period of financial depression.

"I have been in the city for some time," said A. B. Davis, agent of the Canadian Northern steamships at Windermere, "and I am spending a few days in this city and district, when seen at the C. N. R. ticket office this morning."

He said that the hard time had had its effect on business traffic as well as on other things, but that he was not in any way discouraged.

Regarding rail traffic Mr. Davis said that the Canadian Northern was fast becoming as good as any on the continent, and in some ways its dining cars for instance, even better than the old established routes in the east.

Fire Damages Lumber Yard.
Toronto, March 17.—Fire damaged the lumber yard of the company's property at the corner of St. Lawrence street and Eastern avenue last night to the extent of about \$100,000. It started in the engine room and spread to the planing mill. The loss is covered by insurance.

DYING SETTLER THANKS LADIES FOR THEIR AID

Last Moments of W. T. Woodruffe Made Happy by Generosity of Local Women

**APPEAL IS MADE FOR
WIFE AND CHILDREN**

Information About Placid Case Will Be Given By the Capital.

Confined to bed with a lingering sickness, his wife and children dying of starvation, but still too proud to beg, W. T. Woodruffe, a homesteader of Round Lake, Alberta, last week, finally gave up the fight for existence, and passed away surrounded by his family, and one or two friends who themselves were too poor to render anything more substantial than their sympathy. The last moments of the pioneer who had come to this part of the country, sick, but still hopeful of providing a home for his wife and offspring before he succumbed to the white plague from which he was suffering, were, however, made happier by a number of charitable ladies of the city who nobly responded to the appeal made by the Capital.

Money and provisions were sent to the family. A doctor was secured, but alas, too late to do anything but make the last moments of the poor settler more comfortable. Woodruffe was a very old man, and his wife and children were all poor because he had the assurance that his wife and children would be taken care of by the Capital.

Trudelle, and Sergeant Cousineau.

He was heavily armed, carrying a .38 and a .22 caliber revolver. He was caught by Chénier from behind in such a sudden and strong manner that he was unable to make any resistance. Beauchamp says that he has not seen his companions, Alphonse Fauscault and Bourrel since the memorable night of the gun fight last Thursday. Since then he has been hiding in cellars and shacks, had been in communication with some of his friends and has been almost starved at times, subsisting mainly on nuts.

He denied having shot Constable Bourdon.

DEFICIT CAUSED BY SELLING WATER BELOW THE COST

Superintendent Turner Suggests Revision of the Whole Tariff.

THINKS ALL DEBT SHOULD BE CLASSED BY TAX LEVY

Two Heavy Expenditures Last Year Hindered Good Showing by Department.

The annual report of the waterworks department reached the office of the city commissioners yesterday. In this report Superintendent J. W. Turner has set out very clearly the exact conditions in this department. While the financial statement for the year 1913 shows a deficit in revenue account amounting to \$106,571.83, it is pointed out in the report accompanying the balance sheet that had two special expenditures not been necessary last year, instead of showing a deficit of \$106,571.83, there would have been a small surplus of about \$700.

It will be noted in the report submitted by the superintendent that the city has now 128 miles of water mains, some extending as far as four miles from the pumping station at the power house. This has taxed the main to the limit of their capacity and it is therefore proposed to lay larger feed mains during the year 1914. It is also pointed out that owing to increased pressure on the mains, sometimes several days, caused by raising the pressure while fighting fires there has been considerable damage done through heating joints and this has added materially to the cost of maintenance during the past year. With the use of the new fire engines the superintendent hopes that this high pressure may not be necessary in future.

Covers All Branches.
The explanatory report, covering all branches of the department, together with the financial statement and comparisons with previous years, showing the phenomenal growth of the department, as exhibited to the commissioners by Superintendent Turner, given in part, as follows:

Last year's total revenue of this department amounted to \$217,281.58. This year the total revenue amounts to \$237,371. An increase of approximately \$20,000 per cent. The total expenditure has

His assailant was arrested, but was later set at liberty. The motive for her action did not become known. M. Augagneur later presided calmly over the session of the chamber.

FRENCH CABINET AVERTS FAIRING OF RESULT KILLING

Event Expected Because of Assassination of Editor by Minister's Wife.

PRESIDENT POINCARÉ CONFERS WITH PREMIER

Shooting May Have Far-reaching Effect on Political Situation.

Paris, March 17.—The fall of the French cabinet was a matter generally regarded as likely to be brought about by the assassination last night of Gaston Calmette, editor of the Figaro by Madame Calmette, wife of the minister of finance, but the fall was averted.

Premier Doumergue conferred this morning with President Poincaré at the palace of the Elysee, and a cabinet council was called later in the day to decide whether the ministers should resign in a body or an attempt be made to reorganize the cabinet. It was decided to try to reorganize.

It was conceded by all members of parties who discussed the situation today in the lobbies of the chamber of deputies that the shooting of M. Calmette would produce a far-reaching effect on French politics. It was recognized that M. Calmette had been a full member of the cabinet since 1906 and was its guardian star. He had offered his resignation and it was pointed out that the cabinet was no longer in a position to uphold its announced policies.

Madam Calmette's Calmly.
Madam Calmette, when she was taken from the police station to St. Lazare prison, was accompanied by Arthur Lemaire, chief private secretary of the minister for war. She conversed calmly with him.

My husband is one of the most honest of men," she said. "The press campaign which has been carried on against him for some time is frightful. I am waiting for the morning when I open the newspaper."

The prisoner's composure failed, however, when she was told that her husband's resignation was made necessary by his wife's assassination.

Madam Calmette, wife of the editor of the Figaro, was considered the strongest and most influential member of the cabinet, his colleagues determined to accept his resignation and to resign the various portfolios.

Rene Renoult, hitherto minister of commerce, was designated minister of finance. M. J. Malvy, minister of commerce, will succeed M. Renoult as deputy minister of the interior, and under-secretary of the interior will become minister of commerce.

Madam Calmette, who caused this upheaval in French political life, meanwhile in St. Lazare prison. Her husband today took an affecting leave of the officials of the ministry of finance. He was accompanied by his wife, who was in a state of collapse. The police today took possession of various papers in the office of the editor of the Figaro. It is understood that among these papers were various private letters written by M. Calmette to his present wife, and also to his first wife, who is still the wife of Leo Claretie.

Reason for the Attack.
It is generally held that Madam Calmette had received an intimation that Calmette was about to publish a paper which would be a blow to her attack. Calmette was a bitter political foe of Calmette. The chamber of deputies today discussed the attack on her life. Some hundreds of others spent their time in the lobbies of the chamber discussing the situation brought about by the assassination of M. Calmette. Although it was regarded as ill-considered to hold the cabinet in any way responsible for the crime of Madam Calmette, yet the opportunity was taken by opponents of the cabinet to denounce M. Calmette and his associates. The adherents of the government were somewhat disorganized and displayed a sentiment of diminished confidence as to the cabinet being able to resist the attacks of the opposition.

KING AND QUEEN ARE HARANGUED BY SUFFRAGETTE

London, March 17.—Militant suffragettes contributed an extra and "unheeded turn" to the program given before King George and Queen Mary at a music hall performance today in aid of a hospital.

The singing of the national anthem a shower of militant suffragette pamphlets fluttered from the gallery above the royal box. Some of the papers floated into the box and landed on the shoulders of the king and queen. Simultaneously a woman occupying a place in the stalls of the theater stood up and, pointing a finger at the royal party, shouted:

"Your majesties, Mrs. Pankhurst is in prison. I therefore proceed further with her speech as a detective held his hand over her mouth and she was led out of the theater."

The electric light department is the most healthy of all the public utilities of Edmonton, having accumulated during the year 1913 profits to the extent of \$77,583.36, which added to \$8,127.86, the surplus on hand at October 31, 1912, the date when the last annual report was made, the net surplus to the end of 1913 amount to \$175,712.24, out of which the sum of \$15,000 was set aside for obsolescence. It will be noted in extracts from the annual report that there has been a very large increase in the business of the department during the past year. There were 3,514 light services installed during the year, the total number of the city up to 11,652.

STEAMSHIP MAN SAYS EDMONTON ONLY CITY NOW HOLDING ITS OWN

Edmonton seems to be the only city that has held its own during the recent period of financial depression," said A. H. Davis, agent of the Canadian Northern steamships at Winnipeg, who is spending a few days in this city and district, when seen by the Capital reporter this morning. Davis stated that the last time had had its effect on steamship traffic as well as other business, but Edmonton had stood up well and there had been no decrease in that direction here as in other cities of the country. He said that the C.N.R. would have steamships plying across the Pacific ocean and also in the coastwise trade. He said that the C.N.R. would have them to Port Mann, Westminister and Vancouver, and that the steamships they will have to finish the main line to Port Mann, Westminister and Vancouver. He said that he would be ready by July 1 next.

Fire Damages Lumber Yard.
Toronto, March 17.—Fire damaged the Laidlaw Bros. company's property at the corner of St. Lawrence street and Eastern avenue last night by the extent in some ways in their dining cars for instance, even better than the old established roads in the east.

DYING SETTLER THANKS LADIES FOR THEIR AID

Last Moments of W. T. Woodruffe Made Happy by Generosity of Local Women

WIFE AND CHILDREN

Information About Pitiful Case Will Be Given By the Capital.

Confined to bed with a lingering sickness, his wife and three children dying of starvation, but still too proud to beg, W. T. Woodruffe, a homebred settler of Round Lake, Alberta, last week, finally gave up the fight for existence, and passed away surrounded by his family, and one or two friends who themselves were too poor to render anything more substantial than their heartfelt sympathy. The last moments of the pioneer who had come to this part of the country, sick, but still bold in providing a home for his wife and offering before he succumbed to the white plague from which he was suffering, was a happy one. He was happier by a number of charitable ladies of the city who kindly responded to his appeal made by the Capital a couple of weeks ago for aid for the sorrowful case. Money and provisions were sent to his home, and a doctor was secured—last also, too late to do anything but make the last moments of the pioneer who had come to this part of the country, sick, but still bold in providing a home for his wife and offering before he succumbed to the white plague from which he was suffering, was a happy one. PASSENGERS IN PERIL; STEAMER ON THE ROCKS

Hallifax, N. S., March 17.—The steamer City of Sydney, which left last Friday for New York, is in danger of foundering in the rocks at Sambro, a few miles from here. She struck during a dense fog early this morning, and water in her hold had put out the fire.

She carries a number of passengers. Several vessels have been sent to her assistance from here and boats have left from Sambro to take off the passengers.

The weather continued extremely thick during the forenoon and boats had difficulty in locating the steamer. Early reports said that the city of Sydney had grounded on Stag Rock which is at the southwest entrance to Halifax harbor, and that it was in a dangerous position.

The City of Sydney is a steamer of 1,600 tons built under the British flag. She is believed to carry a crew of about 40. Captain McDonald is her commander.

Two Million Dollars The Amount Stolen By Three Hundred Workers

Berlin, March 17.—One of the most important cases of graft ever unearthed in Germany will shortly engage the attention of the criminal court in Hamburg. It concerns allegations of embezzlement from the Hamburg South American S.S. company of nearly \$2,000,000 and which involved more than 300 employees of the line, mostly captains and other officers.

The chief culprits, who have been in jail since September, are chief inspectors of the company, Sieber and Fischer, head of the employment bureau. Their positions, it is alleged, extended over a period of 15 years.

For a quarter of a century, it is an influential official, and owing to his position in which he was held at headquarters the captain and other officials stood in awe of him. They were not, however, to fear of discharge if they incurred his displeasure, to vouch unhesitatingly for his integrity and which, in addition with Sieber, then proceeded to collect, pocketing for themselves the excess of the company's profits and the sums which they made the treasury of the company believe were for the benefit of the company.

London Newspapers Indulging In an Interesting Competition

London, March 17.—The publisher of the London Times said yesterday: "We had orders for 750,000 copies of our first penny issue today, but we printed and sold less than 300,000, because the printing has not been so carefully performed. Our orders for today are still larger and we have sold over 100,000 copies of the paper, but it will run up as high as thirty."

ARMED MEN KNOCK DOWN HOTEL OWNER BREAK IN GIRLS' ROOM KIDNAPPING HER

Chicago, Ill., March 17.—Six armed men early today, went to a north side hotel, knocked down the proprietor, and at the point of revolvers forced Miss Margaret Miller, 24 years old, to dress and accompany them. D. Evans, proprietor of the hotel, told the police the men entered the hotel and

demanded to see the girl. When Evans refused to allow them to go to her room, he said the men knocked him down. At the point of their revolvers they broke into the girls' room and kidnapped her. The men then fled with the girl and dragged her through a rear exit into a waiting automobile, according to Evans's story.

To Deal With Suffragettes Under The New Mental Deficiency Law

London, March 17.—Some members of the cabinet are reported to have received with approval a suggestion that the suffragettes can be dealt with under the provisions of the mental deficiency law, which became operative in April. This act provides for the detention in suitable homes of persons suffering from certain mental deficiencies, when a medical examination supports the claim that they are mentally deficient.

FIRST PUBLIC COLD STORAGE OPENED IN CITY

Splendid Plant in Heart of Wholesale District Costs \$175,000

MODERN IN EVERY WAY; CAPACITY OF 100 CARS

Already Many Rooms Have Been Engaged By Merchants Here.

The first public cold storage plant in Edmonton was inspected and officially opened yesterday afternoon by acting Mayor Joseph Driscoll. The building has been erected at the corner of Fourth street and Peace avenue, is 120 feet long and 61 feet wide, four stories high and is fitted up with an ice making machine of the Lindo British type, having 112 tons of ice capacity.

Edmonton can now boast of a cold storage plant situated in the heart of the wholesale district for the use of the public which cost the owners in the neighborhood of \$175,000, and is modern in every way.

It has a capacity of over 100 cars and is so constructed that it will be possible to store two more cars as soon as the demand for space has outgrown its present capacity.

The plant is modern in Canada. The cold storage machinery is the most modern in Canada, having been purchased from the Lindo British Refrigerator company. The plant has been built from the C.N.R. to the rear of the building and the owners are prepared to handle any private car for any business house in the city or elsewhere.

In connection with the cold storage plant, a carriage department making it possible for the company to call and deliver goods to any part of the city.

An insurance department is another new feature, making it convenient for customers to have their goods insured at any time they so desire. A brokerage department is also in operation for the handling of the enterprise and the sale of land on commission at any time.

The building is so situated that it is possible to have several parties and deliveries made promptly to any part of the city.

Many Rooms Engaged. Already many of the cold storage rooms have been engaged by merchants to handle their private car. There has been an opportunity of storing perishable goods. In one room there are several cars of fresh fruit which have been shipped in from the northern waters. There are several rooms on the second floor which are reserved for "freezers." In these there are several cases of cooling pipes and meats or other goods of customers rapidly frozen and placed in these rooms.

The management will be glad to show the plant to anyone who is interested in the business. The building is owned and operated by Messrs. A. R. Ducas and H. G. Dixon, who are to be congratulated on having the enterprise and ability to launch such a necessary project in the heart of the wholesale district of Edmonton.

BOMB EXPLOSION FOLLOWS RECEIPT BLACKHAND LETTER

Chicago, Ill., March 17.—Explosion of a bomb which had been placed on a window ledge in the rear of a very old building, exploded, blowing a hole in the building early today, and two families were forced to flee the street in their night clothes.

Piano told the police he had received a Black Hand letter demanding \$2,000 about a week ago.

WHEN YOU'RE SICK YOUR WAGES STOP

You know that that means—misery—worry—big bills—distress.

You know you can't afford to get sick. Keeping in good health means food and clothing for you and your family. It is up to you to take care of yourself. It is up to you, whenever you don't feel right, to take something to get your system back to normal.

For a little while, a shankbone or something like that, it has been arranged that one does not need to spend very much time at it, as the ladies of the Y.W.C.A. have obtained permission from the managers of most of the large stores of the city to sell little shankbones, ribbons and other articles by the now well-known tag method, which means that one is liable to be tagged for bottom goods. This is especially so today with the Calgary situation, which has been here in the past.

In Edmonton, of course, some men will buy and buy and buy and still show no signs of being tagged, because they wait to be tagged again. This is especially so today with the Calgary situation, which has been here in the past.

WHAT WE CLAIM

We do not claim to cure really incurable cases, but we do claim to cure and actually do cure 90 per cent. of many diseases and complaints considered chronic or incurable—cases that others have failed to cure.

Read What the Prominent Men Have to Say in Regard to This Treatment

Hon. L. V. Stevens:
Governor of Missouri, in reply to some who criticized him for signing the Osteopathy Bill, said: "The science of Osteopathy assists in relieving suffering humanity, and I do not think I erred in signing the bill."

Hon. H. F. Pingree:
Governor of Michigan, who signed the bill legalizing Osteopathy in that state, said, after a thorough and careful official investigation: "Osteopathy is a science entitled to all respect and confidence as a distinct advance in medicine. I know that it is doing a vast amount of good in relieving suffering and deformity that is not amenable to benefit from drug medication."

Hon. T. A. Briggs:
Governor of North Dakota, when importuned by the Medical Board not to sign the bill legalizing Osteopathy in his State, said: "Osteopathy has helped me. It has also done good to my family and will hurt no one. The bill has passed both houses and I will sign it."

CANADIAN NAVAL AFFAIRS AGAIN BEING DISCUSSED LONDON NEWSPAPERS

London, March 17.—In the last few days there has been a revival of cables from Canada regarding naval matters. Yesterday, for instance, one of the "Toronto correspondents" said there was no immediate probability of an agreement upon any naval proposal which will be accepted by both Canadian political parties.

In several English political journals this morning there is a statement evidently proceeding in each case from the same source and issued on this side, that "an understanding already exists between the British government and the admiralty whereby the cost of dreadnaughts ultimately will be borne by the Dominion government."

There is good ground for hoping that Sir Wilfrid Laurier will acquiesce in this policy, provided that the ships will, at the end of a specified period, become a part of the Canadian navy.

This statement receives prominence in some conservative organs although the journalist who supplied it adds quite candidly: "This way out of the existing impasse is in fact partly provided for in the actual bill which the senate rejected last year."

Flush your Kidneys occasionally if you eat meat regularly.

No man or woman who eats meat regularly can make a mistake by flushing the kidneys occasionally, says a well-known authority. The uric acid which excites the kidneys, they become overworked from the strain, get sluggish and full, filter the waste and poisons from the blood, then we get sick. Nearly all rheumatism, headache, liver trouble, nervousness, sleeplessness and urinary disorders come from sluggish kidneys.

The moment you feel a dull ache in the kidneys or your back hurts or if the urine is cloudy, offensive, full of sediment, irregular of passage, attended by a sensation of scalding, stop eating meat and get about four ounces of Epsom salts from any pharmacy; take the water and poison from the blood, then we get sick. Nearly all rheumatism, headache, liver trouble, nervousness, sleeplessness and urinary disorders come from sluggish kidneys.

NEGRO CHARITABLE WORKER DOES MUCH FOR EAST END POOR

Although comparatively little is heard of the charitable work that is being done by the members of the St. Mark's church of the First Born, Kingston Avenue, it would be incorrect to jump to the conclusion that their energy is in any way lessened, for during the past winter, according to the colored archbishop, G. W. Washington, no less than 16,000 have received charity, the number including men, women and children. All of these were poor residents of the city, for many have run across hard times in the country for the last four or five months, and many of these have been added. Care has been taken, however, that all the cases were deserving and it is the policy of those at the head of the movement not to give money, rather the necessary food and clothing.

Speaking in a Capital reporter today, Archbishop Washington stated that conditions in the east end of the city, soon come as a great surprise to many of the residents of Edmonton. There is much to be done, but...

SAYS EXPRESS FIRMS ARE NOT AFFECTED BY PARCELS POST

That the express companies of the Dominion were not feeling at all any ill effects from the parcels post system lately instituted by the postoffice department of the Dominion government, was the statement made this morning by R. Helms, superintendent of the Pacific division of the Dominion Express company at Vancouver.

Mr. Helms is in the city on a periodic trip in connection with the business of the company, and is accompanied by G. Ford, general superintendent at Winnipeg; W. M. Gordon, superintendent of the western division at Winnipeg; M. W. Haslie, assistant superintendent at Calgary; and C. S. Spencer, assistant superintendent at Moose Jaw. Mr. Ford is just returning from a trip to California.

"There are some features of the parcels post system in Canada," continued Mr. Helms, "which are not as satisfactory to the public as express. For instance, they do not permit to collect and deliver with the same promptness, and they do not give the same protection in case of loss or damage. I understand they are arranging for an insurance system, but when they do institute that, the shipper will have to pay for it, while the express companies do not charge anything for their responsibility."

We believe, however, or at least do believe, that the parcels post system would take away some of our business, but we have not felt it yet."

The visitors said that they were glad to see Edmonton making such great progress in contrast to some other places in the country.

STREET RAILWAY NEWS

Suggestions—Passengers going to Sixteenth, or not that far, will please take the Sixteenth street car during the evening rush hour. This will help the service and those traveling a longer distance.

Calgary Mail Puzzled.
Calgary, Alta., March 17.—The city has thus far been unable to determine the cause of the electrical troubles which have been occurring at the intersection of two men and injured two more.

While it is believed that high voltage wires got crossed on the front street, the authorities have not been able to discover where the short circuit occurred. The indicators at the power house show how any increase of voltage on the domestic circuit. The investigation is being continued.

Local liquor will be held tomorrow.

Chartered Accountants Meet
A meeting of the Chartered Accountants' Association will be held at 8 o'clock Wednesday evening at the Alberta College. C. A. Grant, K.C., will lecture on "Contract Law." All accountants and students of accountants are cordially invited to attend.

DEFICIT CAUSED SELLING WATER BELOW THE COST

(Continued.)
Increased approximately 54 per cent., resulting in a net deficit for the 14 months of \$10,428.20.

It may be noted that but for a special expenditure of \$4,881.29, on cleaning water mains in accordance with a contract entered into during the previous year, 1912, together with a loss of interest, etc., incidental to the sale of debentures of \$5,244.20, amounting in all to \$11,369.59, the department could have shown a small surplus of some \$700.

The financial condition of the department cannot, however, be brought to satisfy basis until the pipe line across river has been completed and put into operation, thus enabling the department to secure from the power house department a uniform rate for water pumped for both sides of the river. This will mean a material saving to the waterworks department.

Water Less Than Cost
Further under the present tariff this department is compelled to sell water to many of its largest consumers at less than cost, and, as I have fully explained in special reports previously submitted to the commission board, I am of opinion that the tariff should be so revised and amended as to eliminate this financial loss to the department.

I would also suggest, as recommended in my report of November 29th, that a special levy or assessment out of the general revenue, and that the department be thus given a clear start for the coming year.

The present system of watermains, comprising some 125 miles, with extensions to a distance of over four miles from the pumping plant, has reached the limit of the capacity for the present for mains. It therefore becomes necessary for the department to undertake the installation of larger and more modern mains, and the installation to be up at various points with the present system. In view of the increasing amount of water mains contemplated for 1914 it is absolutely essential that the installation of these larger feed mains be installed without delay. An appropriation for this purpose is being called for in the 1914 estimates of the department.

Responsible for Leaks
It is still the practice to boost the water pressure at the pumping station for fire purposes, and it frequently occurs that the pressure is boosted several times within 24 hours. This sudden additional strain on the waterworks system is responsible for numerous leaks and thereby expenditure of money for repairs.

It is my duty to call attention to the fact that, by maintaining a slightly higher constant pressure over the system, I trust that facilities for repairs may be taken care of by the fire engines of the fire department and not by the waterworks department, thus saving a large strain on the distribution system.

WOLGAST ANXIOUS TO MEET RITCHIE IN NEAR FUTURE

Chicago, March 17.—Willie Ritchie, lightweight champion, desires to fill his coffers by making a fight at Chicago with some one Chicago and Milwaukee coin, all he needs to do is affix his name to a return engagement with Ad Wolgast at Milwaukee and he will be given the opportunity of pulling down another small sized fortune. He will get the same purse as in the last fight, namely, a guarantee of \$10,000, and possibly of 50 per cent. of the receipts.

Insurance License Cancelled.

Ottawa, March 17.—It is announced by the Ontario Insurance Commission that the license of the Rhinoceros Fire Insurance company, of Rimouski, Que., which has been receiving close attention of the department for some time, has been withdrawn. During the year 1912, owing to several unprofitable transactions from which heavy loss resulted, the assets of the company came below the amount required by the insurance act, and the department has therefore been obliged to cancel its license.

Work Must Be Tendered.

A large body of Ruthenian workmen have been pushing the commissioners recently for an opportunity to dig sewer and water trenches on a co-operative basis which would not permit of its work being awarded by tender. It was decided yesterday that this could not be done, but the applicants will be notified that they will have an equal opportunity with all others to tender when the contracts are being let in future.

HUDSON'S BAY COMPANY

MACKENZIE-GLOVER CONCERT PROVED TO BE GREAT SUCCESS

This company's entertainment more than realized expectations at the Collegiate Institute last night. An enthusiastic audience clearly demonstrated that entertainments such as these talented artists give are fully appreciated, and are being frequent.

Miss Jessie Glover is truly an artist in the French style. Her perfect rendering of "Ladybird's Race" fairly captivated the audience; but perhaps she is seen at her best in acting parts. As Maggie McFarlane in "The Bonnie Fishwife" she gave a finished and pleasing portrait of a bonnie, winsome Scottish fisher lass in a charming manner. W. A. McKennie has lost none of his vocal powers in the duet with Miss Glover, "The Crookin' Banquet," they got encores to the echo.

Miss Nanette Strachan added to the pleasure of the evening by singing the old favorites, "The Scottish Blue Bells" and "Mary of Argyle." Mr. Strachan, senior, played a selection of Scottish airs on the violin, accompanied by Miss Strachan in grand style, and the Highland dancing by C. McKennie was no less well received. The Edmonton public should note that on Wednesday, the 18th inst., in the Segwinton hall, Third Street, this gifted company will give their farewell entertainment, and that they will be seen and missed, as their entertainment is of an exceptionally high order, and Miss Jessie Glover's work should be seen by all lovers of high art before she leaves Edmonton.

HYPOTHETICAL VAGARIES
BY THE BULLETIN.

The intent of the increment tax is to withhold for public use some part of the value which the public gives to property in land.

The lot worth \$100 when the increment tax went into effect and subsequently sold for \$200 shows a value created between times by the public of \$100. Of this the provincial government takes for public use \$5; the remaining \$95 accrues to he who sells to reap the increment.

As seen by the inmates of the Bulletin office, however, it is the man who buys who pays the \$5 increment tax.

To arrive at this strange result, the purchaser would have to pay \$205 for a \$200 lot, of which \$200 would go to the vendor and \$5 to the government.

The value of a lot is what it can be sold for. In actual practice, the purchaser of a lot does not add the outstanding liability to the purchase price in order to arrive at the sum which he will hand over in consummation of the deal. On the contrary, he subtracts it. If there is a mortgage against the lot he subtracts the amount of the mortgage, and whatever tax liability may exist as well. To whom the mortgage is owed makes no alteration in his system; nor does it matter in his calculation whether the taxes are due to the municipality in the form of direct taxation upon land or to the province in the form of \$5 out of every \$100 increment, collectable on transfer.

In other words, the purchaser in the \$200 lot deal would subtract the amount of the mortgage, if any, the mortgage taxes in arrears, if any, and the increment tax of \$5, and then would hand to the vendor the balance as the amount due on the purchase.

While the Bulletin's hypothetical washerwoman or some other of its hypo attaches might be found sufficiently unaccountable to enter into a transaction of the nature the Bulletin describes, it is scarcely likely that any considerable number of persons deemed competent would thus squander their money.

PRINTERS PROMINENT AS
FRONT RANK MEN

The proposal at Ottawa that there should be some formal recognition of Sir MacKenzie Bowell's having passed his nineteenth birthday brings to mind the fact that the patriarch printer has seen much of Canada's history in the making, having come to parliament with confederation, nearly half a century ago, and having been there continuously ever since.

As a parliamentarian MacKenzie Bowell has mingled with distinguished public men all his life, and it is interesting to note what a number of printing craftsmen who graduated from the case to positions as front rank men, where their talents were more widely recognized. Among the printers who have attained greatness are to be found William Caxton, father of English literature, a practical printer who worked at it as a business. C. P. Morris, N. P. Willis, Innis Gates, Charles Richardson, James Parker, Horace Greeley, Charles Dickens, James Buchanan, Simon Cameron, Schuyler Colfax, were all printers—and practical ones at that. Mark Twain, Amos Cummings, Bret Harte, Artemus Ward, Petroleum V. Nasby and Sil Lovingood were all printers. George Brown, besides being a large figure in Canadian affairs, was a printer, and Senator Ellis worked his way from the case to high position. The Earl of Stanhope was proud of the fact that he was only a printer. Prince Edward William, the Prince Napoleon, and the late Czar of Russia flattered themselves that they were printers, although it is not recorded that they ever placed their names on the slip-board, and the crown prince of Prussia and the Duke of Battenburg both claim to be journeyman printers and able to earn a living at it if such should fall to their lot.

UPON ALBERTA STANDS
THE TAX REFORM

As indicating the relative position of Alberta as contrasted with the most advanced states of the republic to the south in the matter of tax reform, it is interesting to note that there is being circulated in Oregon at the present time a petition calling for the initiation of a bill in the legislature to exempt houses, livestock, trees and vines of settlers to the extent of \$1,500.

Oregon is counted to be the most advanced of the states. It has direct legislation and the direct primary, and at the last session of the legislature passed an act which exempts personal property, meaning jewelry, furniture, automobiles, etc., but up to the present has been taxing the houses and barns of farmers and the live stock in the fields, together with the implements and equipment necessary to farming.

Alberta, the newest of the Canadian provinces, never took a dollar from any citizen farmer or otherwise, on such account.

RICH TWICE AS RICH AS THOUGHT;
ARE THE POOR TWICE AS POOR?

Advance estimates of the amount of money which will come into the United States treasury on account of the income tax indicate that whereas it was estimated that the total would be not more than fifty millions, the actual receipts promise to aggregate more than one hundred million.

In view of the fact that it has been asserted times without number that the industrial, the system which has brought into existence the exaggerated fortunes and colossal trusts of United States was separating the people of the country into strata of very rich and very poor, it is interesting to note that the rich are twice as rich as the most authoritative actuaries ever imagined them to be.

It would be interesting also to now discover whether the poor are not twice as poor.

FIRST THINGS

Shamrocks.

The first to suggest the shamrock as Ireland's national emblem was the great and good St. Patrick, whose festival is celebrated today by Irishmen throughout the world. It was about the year 432 that Patrick, an Irishman, afterwards St. Patrick, adopted the shamrock as a simile in his memorable illustration of the doctrine of the Trinity. Ever since then Irishmen have differed in their opinions as to the identity of the true shamrock of St. Patrick, some alleging that it is the small yellow clover, others the white clover, and still others claiming that the honer belongs to the slender white clover and the common wood sorrel. All of these have tripartite leaves, and might have been used by him in his famous illustration. The white clover and the yellow trefoil are the shamrocks most worn in Ireland on St. Patrick's day, and exported to this country. Scientists who have investigated the subject incline to the belief that the sour and edible wood sorrel is the true St. Patrick's shamrock, and that quantities of this plant were taken for sale on St. Patrick's day.

RINGWORM ALL
OVER GIRL'S FACE

Hands and Arms. Burning and Painful. Suffered Day and Night from Itching. Cured by Cuticura Soap and Cuticura Ointment.

St. Veronique, Que.—"My little girl got ringworm all over her face, hands and arms. I was given a sort of white ointment and like a pint of water to wash with. After eight days of this treatment the ringworms instead of healing because dark red and were spreading, then were burning and painful. The child suffered day and night from the great itching. I was very distressed."

"One evening I found a sample of Cuticura Soap and Ointment that I had requested the year before. So I commenced a wash with the small piece of Cuticura Soap, then applying the Cuticura Ointment and at the end of five days the cure was complete. After fifteen days the ringworms were cured over and whitish, then on the twenty-fifth day the child was cured." (Signed) Mrs. Marie Louise Rios, May 26, 1913.

trace of dandruff or falling hair, but your real surprise will be after about two weeks' use, when you will see new hair growing and coming in at first—yep!—but really new hair—growing out at over your scalp—Danderine is, we believe, the only two-year growth restorer of dandruff and cure for itchy scalp and it never fails to stop falling hair at once.

If you want to prove how pretty and soft your hair really is, moisten a cloth with a little Danderine and carefully draw it through your hair—taking one small strand at a time. Your hair will be soft, glossy and beautiful in just a few moments—a delightful surprise awaits everyone who tries this.

TODAY WE CELEBRATE

St. Patrick in
Prose and Verse.

St. Patrick was a gentleman. Who came of decent people. He built a church in Dublin town. And on it put a steeple. His father was a Galliard. His mother was a Brady. His aunt was an O'Shaughnessy. His uncle was a McGraw.

Thus Henry Bennett dispenses of the ancestry of the patron saint of Ireland, whose festival is being so widely celebrated today. Historians have given many and varying accounts of the lineage, birth and career of St. Patrick. Most agree that he was born in Scotland, probably in a little town on the mouth of the Clyde about the year 372. His father was of a good family named Calphurnius, and a Roman official stationed at the wall of Verulam, which was the dividing line between Roman civilization and the country of the warlike Picts and Scots. His mother is believed to have been Concessa, a niece of St. Martin of Tours.

The future saint was named Sacer. As a lad he was kidnapped by raiders from Scotland, carried across to Ireland and sold into slavery. His master for whom he herded cattle on the hills called him "Patrickus," the young patrician, hence the name of Patrick. After a time the boy escaped, and studied for the priesthood in France. Then he returned to Ireland to seek the conversion of the people among whom he had been held a slave. William Maugin, the Irish poet, gives this somewhat facetious account of St. Patrick's arrival:

On a lump of paving-stone mounted. The stevedore he beat to a mile. Which mighty good sailing was counted. Says he: "The salt water, I think, Has made me most bloody thirsty. So bring me a hazon of drink To keep down the multigrubs, burst ye."

Of drink that is fit for a saint. Another poet gives a somewhat grotesque impression of the occupation of St. Patrick's mother:

No wonder that those Irish lads Should be so gay and frisky. For sure St. Pat he taught them that. As well as making whisky. No wonder that the saint himself Should understand distilling. Since his mother kept a shebeen-house.

In the town of Enniskillen. Of the observance of St. Patrick's day, Samuel Lewis tells us in verse that there was a controversy as to whether the saint was born on the eighth or ninth of March, but that a compromise was effected by adding eight and nine and celebrating on the seventeenth.

Then they got all blind drunk—which complicated their bliss. And we keep up the practice from that day to this. This St. Patrick's day is the twenty-eighth birthday of the lovely Princess Victoria Patricia Helena Elizabeth, popularly called Princess "Pat," the youngest child of the governor-general of Canada and Duchess of Connaught. King George's charming cousin is one of the most popular members of the royal family.

She might now be Queen of Spain if she had wished, as it is no secret that King Alfonso was enamored with her and offered her his hand, heart and throne. When refused by Princess "Pat" he consoled himself with her cousin.

WAS SUBJECT TO
SEVERE BRONCHITIS.

Doctors Only Give Temporary Relief.

Dr. Wood's
Norway Pine Syrup
CURED HIM.

Bronchitis is generally the result of a cold caused by exposure to wet and inclement weather, and is a very dangerous inflammatory affection of the bronchial tubes. Neglected bronchitis is one of the most general causes of consumption, so cure it at once by the use of Dr. Wood's Norway Pine Syrup.

Mrs. C. G. Dring, Hamilton, Ont., writes: "Our little boy has been subject to severe bronchitis ever since he was born. Different doctors claimed to be only able to relieve him temporarily. A neighbor advised us to use Dr. Wood's Norway Pine Syrup, so I got a bottle, and after the third dose noticed a decided change, kept on with it, and a couple of bottles were enough to completely cure him. Now we always keep a bottle on hand and give it to him as soon as we notice him troubled with a cold, after which it disappears like magic. I can heartily recommend it to all our friends who find it is just as good as I say."

Price 25 cents a bottle. Be sure and get the genuine "Dr. Wood's" when you ask for it. Put in a yellow wrapper, three pine trees, trade mark, and manufactured by The T. Milburn Co., Limited, Toronto, Ont.

TODAY'S BIRTHDAY
PARTY.

Henry Siegel, Merchant Prince.

Who Turned Sixty-two Today.

One of the greatest mercantile failures in years was that which recently involved in ruin the big department store of Henry Siegel. The merchant prince, who sought to dominate the department store business of three cities, New York, Boston and Chicago, and whose gigantic mercantile fabric lately toppled about his ears, was born sixty-two years ago today at Eschheim, Germany, the eighth of ten sons of a farmer burgomaster. In his boyhood the exodus from the Fatherland to America was at its height, and all ten of the brothers joined the tide of emigration. Henry Siegel was fifteen when he passed the examination at Ellis Island which enabled him to set foot on the soil of America. After a few days in New York he went to Washington, where he began his spectacular mercantile career as a clerk in a dry goods store at \$2.50 per week. He attended night school in Washington and laid the foundation of an excellent education. His brothers' store at Parkersburg, Pa., held him for two years and then he became a partner in the Siegel Bros. establishment at Lawrenceburg, Pa.

In 1876 all of the Siegel brothers returned to Chicago, where they established a cloak manufacturing concern. There were not enough executive jobs in the firm to go round, and Henry went on the road as a traveling salesman. In 1885 Henry Siegel formed a partnership with Frank H. Cooper and established the Siegel, Cooper & Company department store in Chicago. By 1890 the firm was a very successful one, and Mr. Siegel transferred his activities to other cities. In 1896 he founded the Siegel-Cooper Company in New York, and also started the Fourteenth street store in that city and the Henry Siegel Company department store in Boston. At one time he had great department stores under his personal management, but the load was more than he could carry, and last December the New York and Boston enterprises went into the hands of receivers for reorganization.

Charles Joseph Henry, the famous San Francisco graft promoter, who was recently an assistant to sit in the United States senate, was born in Lima, N.Y., fifty-five years ago today. He has resided in San Francisco for half a century, except for a few years as a cattle puncher, ranchman, Indian trader and lawyer in Arizona. He was attorney-general of Arizona before returning to his native city and commenced his prosecutions of land fraud, waste and municipal grafters.

Dr. Stephen Samuel Wise, founder of the Federation of American Zionists and of the Free Synagogue in New York, and most eloquent of Jewish orators, was born in Budapest, Hungary, forty-two years ago today. His father, Dr. Aaron Wise, was a rabbi, and his son has been worthy of such a sire. Dr. Wise was pastor of a congregation in Portland, Ore., for several years before founding the Free Synagogue.

TODAY IN DOMINION
HISTORY.

One hundred years ago today the 1814 campaign in Canada opened with the advance of the American army under General Wilkinson from Plattsburg to Chazy. Wilkinson had 4,000 men under his command, a formidable force compared with the regular defenders of the Canadian frontier, who could muster less than 1,500 troops, of whom about a third were Canadian militia and the remainder regulars. At Chazy, a century ago today, Wilkinson was a brigade of Infantry and a company of Brigadeurs. He was at Plattsburg, a mile within the Canadian border. They remained there until the 29th, when they recrossed the lake and rejoined Wilkinson's main army, which then advanced to attack La Colle Mill. A handful of gallant defenders, numbering only 540, under the command of Major Handcock, checked the American advance and the army was eventually repulsed. A little later, Wilkinson was recalled by the American military authorities, and landed back in his place. Wilkinson was hailed before a court of inquiry, but was acquitted of the charges made against him, although discharged from the service. The disgraced general went to Mexico, where he died. In the meantime the withdrawal of the British army from the continent left England free to pursue the American war with great vigor, and the conflict was carried to the United States and its capital city captured. In Canada the tide of battle favored first one side, then the other, until a treaty between the warring nations ushered in a period that has endured for a century, and will probably endure forever.

Small Moose Jaw Docket.

Moose Jaw, March 17.—With one of the smallest dockets on record, the spring session of the supreme court opens in Moose Jaw tomorrow morning. Earl Foster will face a charge of stealing grain.

They found the royal messages intercepted considerably with regular naval work, so they proposed to install a wireless station at Buckingham Palace. If the king would pay the cost, the transmission of royal private messages through the official station has now ceased.

Walter Stone, who was implicated in the scandal surrounding the missing materials from the city stores last fall, is now charged with the theft of a handbag from a C.P.R. passenger coach.

A charge of the most serious character is laid against Arthur Johnson, a colored man, regarding a girl.

Victoria, B. C., March 17.—Seen by the W.A.P. correspondent last night, Col. J. A. Hall, officer commanding the 8th Battalion, who has been in command of the force in the Nanaimo strike zone since August last, denied that he had resigned his command.

SENSATIONAL SALE
EXPECTED OF THIS
COLLECTION OF ART

Paris, March 17.—It is stated here that the Paris portion of the Murray Scott art collection, now owned by Lady Sackville, will be sold at auction in London next June.

This promise to be the most sensational sale since the war. It is expected the total sum realized will exceed even the four million dollars which it is alleged was paid by P. A. Widener for the collection. The highest price reached by a sale of this kind was \$2,750,000 at the Bonnet sale in 1911.

New Turkish Appointment.

**PLANS NOW COMPLETE
FOR PUBLICATION OF
MUNICIPAL GAZETTE**

Plans have now been completed for the publication of the first issue of the municipal gazette. The verbatim reports of the proceedings of the city council of tonight will be taken down by Messrs. Grimes and Millberg, the former being employed in the city clerk's department and the latter in the council house. It is proposed to have the stenographers work all night that the copy may be handed to the printers at midnight on Wednesday. The publication is due to appear on Thursday morning at the homes of the ratepayers who are to get it delivered free of charge.

A feature of the initial number will be portraits of the aldermen and commission boards. Special articles are also being prepared by a number of heads of departments to make the issue more interesting than it otherwise would be, were a verbatim report of council all that appeared in the magazine.

THE GAY WORLD.

The Lieutenant Governor and Mrs. H. V. Bulger are entertaining at Government House this evening in honor of Mrs. Arthur Ross and Mrs. Walter Scott of Regina, and Mrs. C. R. Mitchell.

The invited guests are Lieutenant Colonel and Mrs. D. J. Saunders, Mrs. and Mrs. R. Cuthbert, Dr. and Mrs. Ferris, Mr. and Mrs. J. J. Anderson, Mr. and Mrs. A. B. Perry, Mr. and Mrs. Kenneth McDonald, Dr. and Mrs. L. A. J. Egan, Lieutenant H. C. Gillespie, A.D.C.

The Altar society of St. Joseph's parish are giving a St. Patrick's concert this evening in parish hall at St. Joachim's church, Tenth street.

Mrs. K. A. Blatchford was hostess at a delightful miscellaneous shower last evening for Miss Nell Hume, whose marriage to Mr. Hallerman takes place next week. A large number of intimate friends were present, and a jolly time was had. Shamrocks in bouffant profusion were in the decorative scheme and green carnations and ferns graced the pretty supper table.

The young people of Westminster Presbyterian church held a very enjoyable St. Patrick's social in the church parlors last evening.

Mr. and Mrs. Vernon Barford have as house their sister, Miss Jessie Lynch, of Winnipeg.

The Women's Mission Circle of the First Baptist church are "at home" in the church parlors from three to five this afternoon to the mission circles of all the Baptist churches of the city. Mrs. Buley and Mrs. H. H. Williams are the hosts, and will also make a report on the women's convention recently held in Regina.

Mrs. Ewing, president of the Women's Canadian club, is most anxious that the members of the club and all other interested women will make it a point to try to hear Mrs. Newhall and Mrs. Wade of Calgary, who are to speak at the Farmers' Institute tomorrow, Wednesday at 2.30 in the afternoon and 8.30 in the evening at the Empire Auditorium.

It was largely through the efforts of these two ladies that the splendid market in Calgary was established and the cost of living, especially in the matter of meats and fruits, was greatly reduced. At the time Mrs. Newhall and Mrs. Wade began the agitation in regard to market conditions, Calgary had no better market than Edmonton has at the present time, hence Mrs. Ewing feels that Edmonton ladies could learn much from the advice and experience of these women, who have done so much for their home city. That their work has been practical and of great advantage, one has but to walk through the splendid new market of Calgary to fully realize the benefits of the great work rendered by these two women, and to hear them tell how they accomplished their task.

plished this work cannot but prove to be an most interesting to every lady in Edmonton.

"B" Squadron of the 19th Alberta Dragoon will not hold their usual dance on Friday evening of this week. The next dance will be held in the armory on April 15th.

A quiet wedding was solemnized on Monday morning at 10.30 when Esther Anna Josephine, daughter of Mr. and Mrs. James McIntyre of Edmonton, was united in marriage to Neil Reginald Martin, second son of Mrs. Anna Martin, New York. Rev. W. L. Armstrong of McDougall Methodist church performed the ceremony. Mr. and Mrs. Martin will reside at Mirror Landing.

Several young people motored out to the residence of Dr. and Mrs. Ferris last evening and surprised them and their young house guest Miss Irene Lyon of Guelph when the young folks indulged in a little impromptu dance and a generally good time. The guests included Miss Jessie MacLaffie, Miss Lorna Nichols, Miss Corrie Gilmour, Miss Kitty Pace, Miss Maxine Russell, Miss Jean Turnbull, Miss Esther Martin, Marjorie Campbell, Mr. Russell, Norman, Dr. Gunn, Dr. Jamieson, Dr. Miller, Dr. Neff, Dr. H. H. Perry, Mr. and Mrs. Pearson, Mr. Frank Cochrane, Mr. Allan Harvie, Mr. Gordon Powis and Mr. Lorne Campbell.

CUPIDS KNOTS

Wood-McKay.

A quiet but pretty wedding took place at 3 o'clock on Wednesday afternoon, March 11, at the home of the bride's cousin, Mr. Wm. Morrison, 915 Avenue North, when Emma Joyce Wood, of Edmonton, and Elizabeth Belle McKay, of Saskatoon, were united in the bonds of holy matrimony. The Rev. John Galloway, of Mayfair Presbyterian church, performed the ceremony. After the company had enjoyed a daintily served tea, the happy couple boarded the 4.30 train for Edmonton, where they will reside. Mr. Wood has been in Edmonton for some time, and is well established there. The bride and groom were formerly from Prince Edward Island—Saskatoon Star.

OUT OF TOWN NEWS

Mrs. A. Stimmel, of Edmonton, visited with her sister, Mrs. J. Campbell, at the National hotel last week.

W. E. Bush, of Edmonton, a noted sports composer, spent a few days in town this week.

Rev. Principal Dyke of Robertson college, will be the minister at the special anniversary services in the Presbyterian church Sunday night. Dr. Dyke is a modern theologian and a good speaker. These services should draw large audiences.

Stettler Independent.

Mrs. John N. 531 Rutland street, will receive on Wednesday for the last time this season.

Mr. Ottewill was a Stettler visitor on Friday last, where he delivered a lecture on "Epics," which closed an extension lecture of the University for this season.

A young lady has come to the home of Mr. and Mrs. C. H. Crealock, Saskatchewan avenue, and will make Edmonton her permanent home. She weighs 10 pounds, and although she has no money, she is not particular in language, yet is perfectly successful in making her wants known and ordering the affairs of the household.

Mr. and Mrs. T. Moorehouse have returned from a visit to Edmonton—Calgary Alberta.

Mrs. Hartnett, of "Park," is giving a five hundred thirty afternoon given for her guest, Mrs. McCarthy, of Edmonton—Calgary Alberta.

The engagement is announced of Miss A. M. Tregent, eldest daughter of Mr. and Mrs. A. E. Tregent, and Mr. Godfrey U. A. Chowne, second son of the late rural dean of Algonia and Mrs. Chowne, of Vancouver—Calgary Herald.

FANCY, FROLIC, FUN, FORM AND FIGURE AT THE PANTAGES

This week's program at the Pantages might well be called a display of "form and figure" for in all but one of the acts, the "figure" comes in for a fair show of importance. A capacity house greeted the actors, in all, and apparently everyone had a real good laugh at seeing or hearing of the many "stunts" and "jokes" pulled. There is no particularly outstanding feature on the bill, except in numbers one, Laszky's Hoboes and The Diving Girl Troupe having six members each. Cornish & Wilbur, billed as The Tommy Atkins, are but everyday tumblers and acrobats, and their act is quite commonplace. The comedian of the pair is undoubtedly the better, and does draw a few laughs from the crowd, but their every act and effort have been a dozen times by every vaudeville audience in the country. A long, diving roll and tumble, is the best piece of their act.

"Bits of vaudeville are handed out by Rackett, Hoot & Mackay. This trio is composed of two ladies and a gentleman, and their fun and frolic improves as it progresses. Upon first appearance, the ladies are dressed in cream serge suits, which are not nearly so becoming as their robes and opera cloaks worn later. A few "puns" and a little foolishness is the essence of the initial part of the act, and a couple of songs by the trio, who sing in unison. Posing as "reporters," one of "The Daily Bread" which is rather "crusty" and the other on the "Fly Paper," upon which she hopes to "stick," the pair so tantalize their male friend that most of the turn is composed of throwing his hat high in the air. The last part of the act, supposedly in a well-known New York cafe, furnishes the best part of the act, both in costume, song and dance. The rendition of "Where the red, red, red grows" is their best vocal number. Dressed as the best of vocal number. Dressed as the best of vocal number. Dressed as the best of vocal number.

MUSICAL FESTIVAL COMMITTEE ARRANGES AMBITIOUS CONCERT

The Alberta Musical Festival committee are arranging a grand concert to take place in the First Presbyterian church on Friday evening, March 27. This is with a view to clearing off the deficit existing from last year's festival, and it is hoped that by this means the Festival of 1914 will be able to start afresh with its bills paid. In view of this, it is hoped that all those who have the best wishes of the festival committee at heart, will plan to reserve that date and be there in large numbers.

MUCH SPECULATION REGARDING TRUTH ABOUT CARRANZA

Thomas, Ariz., March 17.—Gen. Carranza, "first chief" of the constitutionalists, has not been heard from since he left Agua Prieta last week. He was expected to reach Ciudad Juarez, between Sonora and Chihuahua, yesterday.

Meanwhile many rumors are afloat that Carranza intends to camp in the mountains and remain out of communication with the border until assured of the attitude of Villa toward him. He is also said to be desirous of keeping out of touch with the United States for a time.

Both these reports, however, were negated by Huerta agents. Carranza, Mexico, March 17.—On account of alleged lack of sympathy with Carranza personally, Ricardo Gaxiola, constitutionalist command here, was summarily dismissed today. This is the latest development in the anti-Carranza plot, which is said to have been formed recently. Gaxiola had supported the cause and not the man, and it is reported there was fear he might join with the opponents of Gen. Carranza.

Opposition to Carranza is developing, it is said here, and it is also reported that only his friends are allowed to hold office.

NAVIGATION SCHOOL OPENED BY CANADA STEAMSHIP LINES

Owen Sound, March 17.—Something new in schools is that now being conducted at Owen Sound by the Canada Steamship Lines, limited. It is for the benefit of their own men—a course in navigation. Last month the higher navigation school was opened in Toronto, and after a few weeks session at Owen Sound, it was moved to Montreal. Captain George D. Brewer, official fleet commander of the company's fleet of 101 boats, is the instructor. To him comes the captain, first mate, second mate and wheelmen in the employ of the Canada Steamship Lines for their navigators being fifty per cent. higher than the government standard. This results in a high degree of efficiency on the part of the company's officers. An interesting the thoroughness

SIX WEEKS HARD LABOR SENTENCE PRONOUNCED AGAINST SUFFRAGETTE

London, March 17.—A sentence of six weeks' hard labor was pronounced today in police court on Catherine Wilson, a militant suffragette, who was arrested last night, in the lobby of the house of commons, while dressed in men's clothing and hiding a dog whip in her sleeve. She was charged as a suspected person. She said to the magistrate: "Of course, I shall not serve the sentence," and added, "I went to the house of commons to see Premier Asquith and Home Secretary McKenna a good thrashing."
